“It's curling time!” posted by Erdenebaatar Tsetsegjargal, Iwate University

It's curling time!

Curling? Maybe this type of sport sounds so funny and easy. One day I went to play

curling with my friends first time. I'm not going to hide my feeling that how curling seems easy to me. I just thought I need that stone and stick to rub the floor. But this sport seemed very competitive and interesting.

On they play 4 people need to make a team. Each people slide

per stone. And as much as stone you placed in the red circle with nearest blue circle will be won. Does it sound easy right? But no. whether you win or not It depends on further techniques and strategies. We can also manage to see where the stone going on the screen. That gave me the real feeling to play with that sport and you can think about next strategy to slide the stone.

Maybe someone who bashes this game has to try it. It really needs some techniques and strategies. Maybe if you want to play further like a professional player you can enter

Morioka's curling team. ;). I really love this sport now. Even I was a starter, my team won this game and it gave me soooo much fun. You can play curling at “Morioka city ice arena” whenever you want. I promise that you will be love this sport.

ピョンチャンオリンピックで女子チームが話題になった「カーリング」ですが、ツェツェグジャルガルさんの記事を読んで初めて盛岡でもカーリングを体験できるということを知りました！一見簡単そうに見えますが、とても難しいスポーツなんですね。ぜひ体験してみたいものです。
